

RDC logbook

Researcher Development Course and group journal-club activities

Eoin Murray CRSid: em586

Division F · PhD in Engineering

Academic years: 2025/26–2026/27 · Started January 2026

Date	Activity	Participation
Not recorded	RDC: Introduction to GitHub for Research & Development	Attended the session.
Not recorded	RDC: Intellectual Property	Attended the session.
Not recorded	Group journal club: paper presentation	Presented Yan et al. (2025), <i>Efficient and robust temporal processing with neural oscillations modulated spiking neural networks</i> . The paper introduces Rhythm-SNN, using oscillatory modulation to improve temporal processing in spiking neural networks.
Not recorded	Group journal club: research progress	Presented progress on a paper I am writing.

Exact attendance and presentation dates are not recalled and are therefore recorded as “Not recorded”.

Paper presented

Yan et al. (2025). *Efficient and robust temporal processing with neural oscillations modulated spiking neural networks*. Nature Communications, 16, 8651.
